

Portable Desktop KVM Switches featuring DisplayPort, HDMI, DVI, and VGA Video

Easy to carry collection of gadgets to meet all the new video interfaces need

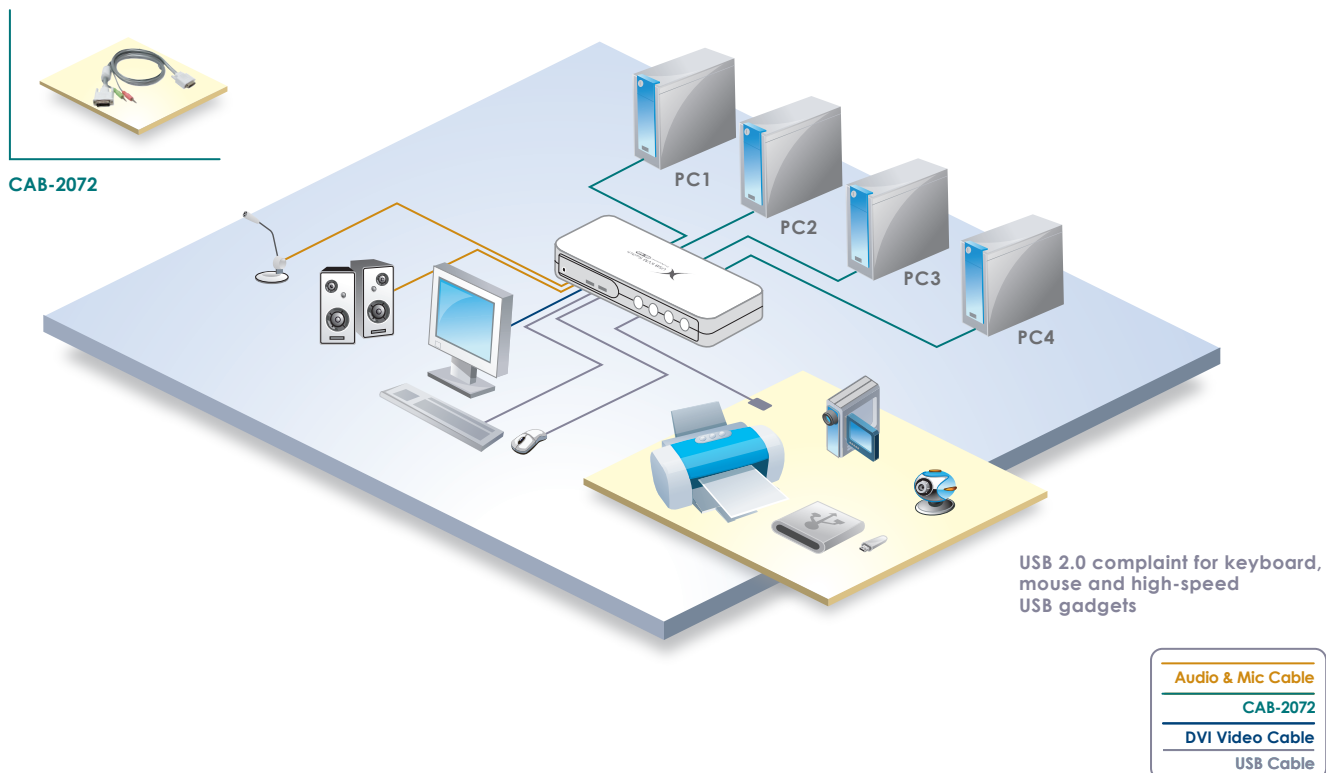

This collection of Desktop KVM Switches gives something extraordinary for both the analog and digital desktop. It has worthy and noble features like **True Transparent USB (TTU)** keyboard / mouse Emulation and **Active Sync Replication™ (A.S.R.)**. With both technologies, you can simply forget about bad experiences from keyboard, mouse, and video glitches due to incompatibility. There are four different video interfaces to choose from: DisplayPort, HDMI, DVI, or VGA. Each KVM comes with four extra USB 2.0 devices port. Two located in the front and two in the back make it easy to connect your USB flash drives, external hard disks, webcams, printers, etc. These KVMs extreme functionalities are really something you would like to have on your desktop.

Features

- Video support for DisplayPort, HDMI, DVI, or VGA
- 4 extra USB 2.0 device port for high-speed USB device sharing
- **True Transparent USB** emulation technology for any keyboard and mouse*
- **Active Sync Replication (A.S.R.)™** for ultimate video compatibility
- Simultaneous / Independent peripheral switching by hotkeys

Model No.	ADEP04A	AHEP04A	AIEP04A	APEP04A
Video Interface	DVI	VGA	HDMI	DisplayPort
Maximum Video Resolution	1920 x 1200	2048x1536	Full HD 1080p	2560 x 1600
Keyboard / Mouse Emulation	True Transparent USB (TTU®)			
DDC Emulation	Active Sync Replication (A.S.R.)			
USB Device Ports	4 x USB 2.0 device port / independent switching configurable			
Hotkeys	Yes			
Cable Part number	CAB2051,CAB2072	CAB2051,CAB2165	CAB2051,CAB2091	CAB2016, CAB2051,CAB2119W

AD-EP04A Series
